Subject: Important footnote regarding Katie Flahive's availability for OR CZARA

...Katie reminded me that she is going on a detail with Region 5 for 4 months, beginning in mid-July. She is still available to assist with the cause before then, however.

Yes. I have put Katie on notice (and am copying her here). I agree; the more, the merrier. I also figured that Alan Henning would be fairly key to our Ag review.

Hi Don,

Am I correct that Katie is available to help address the Ag CZARA comments? I recall you mentioning it in the past but it has been a while since she participated. Jenny may have recruited another individual in our office to help out and I thought it would be great to get them together so we can strategize on how to best approach this task.

Thanks, Jenny. Helen should coordinate with Katie Flahive as she is the HQ ag lead.

Subject: Update on CZARA and Oregon Team Meeting

Hi Jayne,

You don't have to respond until you're back from Ex. 6 - Personal Privacy I hope you're having some good Ex. 6 - Personal Privacy time. I just wanted to give you a few updates on CZARA.

CZARA. As you know since you were on the phone, it looks like we're back to a January 31, 2015 deadline for a final disapproval or a notice of intent to approve. It's clear that we need to review and respond to comments on ag and the disapproval. Ex. 5 - Attorney Client

Ex. 5 - Attorney Client

attorneys to make sure we get an answer on this one.

Lastly, I was talking with Alan because I'm helping on forestry and ag, and we ended up asking Helen whether she could help us review ag. So I hope that was okay to go ahead and do that. We started getting worried that with our time on the Riparian Rule that we needed more help and wanted to get her time.

OR TMDL Workload Meeting. Next Thursday from 2-3:30pm, we have our Oregon TMDL workload meeting. I wanted to make sure we have coverage on all the TMDL work, but as I was thinking more, this meeting is also about figuring out what the biggest needs are in Oregon and whether we're all staffed well-enough on 303(d), CZARA, and TMDLs. For instance, I think CZARA is the most important thing for me to work on, but what does that mean for TMDLs? Anyway, I thought it would be good for you, Jill, and I (I'm going to also talk to Martha) to think of tasks where we know we'll need help, make sure those are assigned, and that people are working on what they want to work on. I also thought we could identify gaps where we could either get others from the unit to help out or get the ORISE fellow to take on. So FYI on that. I'm going to pull something together this PM hopefully.
